

Kamil Wiśniewski

JUNIOR PYTHON DEVELOPER

Profile

Since I completed my first "Hello world" application in the console I have become passionate about Python and web development and I have known that it is more than just a job for me. I have been spending my free time on learning Python and Django ever since. It has become an engaging challenge for me to continually learn and improve my skills. My long term goal is to become able to create a high quality software. Please see some of the projects I completed below.

Employment History

Self- Taught Junior Python Developer

NOVEMBER 2022

- Personal portfolio website- developed with Django using HTML, Bootstrap, CSS and Git
- Password generator website- developed with Django using HTML, Git and Bootstrap for polishing
